Side ramp and bascule bridge at Ebeltoft Harbour

CLIENT

Mols-Linien

CONTRACT TYPE

Turnkey contract

TIME FRAME

January 2013 - April 2013

LOCATION

Ebeltoft, Denmark

Project description

As turnkey contractor on the project, Bladt Industries was in charge of detailed project engineering, manufacturing, surface treatment, installation and commissioning of one new side ramp and one bascule bridge at Ebeltoft Ferry Harbour, making arrival at the upper deck of the H/F Max Mols ferry possible.

Being 11 metres long and 4 metres wide, the ramp and bascule bridge have a total weight of 14 tons.

FACTS

- Weight: 14 tons
- Length: 11 metres
- Width: 4 metres
