Installation	October 2009

Scope of the contract

- 160 tonnes/14x25 metres
- Design
- Civil works
- Control systems
- Delivery
- Installation
- Commissioning

For more than 25 years, Bladt Industries A/S has been the leading supplier of ro-ro ramps and other shore-to-ship installations to ferries and ro-ro terminals in Scandinavia.

These large, complex steel structures are prepared on a turnkey basis with the clients' demands and needs in focus. The turnkey solutions include design, manufacturing, civil works, hydraulics, installation and commissioning. Each ro-ro ramp manufactured by Bladt Industries A/S is designed and prepared for future ship designs.

Ro-ro ramp in Hirtshals

In October 2008, Bladt was awarded a turnkey contract regarding a new ro-ro ramp to the Port of Hirtshals. The ro-ro ramp was in-
